SUPPLEMENTARY INFORMATION: The Foreign Labor Certification Quarterly Activity Report, Form ETA-9127, is used to collect information from a State Workforce Agency (SWA) on activities performed under a Foreign (Alien) Labor Certification reimbursable grant and provides a sound basis for program management, including budget, workload management, and monitoring for compliance with the grant. A new information collection component has been added to this ICR, to account for the surveys conducted by the SWAs to collect information about prevailing employment practices in agriculture.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information if the collection of information does not display a valid OMB Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under OMB Control Number 1205-0457. The current OMB approval is scheduled to expire on May 31, 2012; however, it should be noted that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. New provisions would only take effect after OMB approves them. For additional

information, see the related notice published in the Federal Register on March 27, 2012 (77 FR 18267).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the ADDRESSES section within 30 days of publication of this notice in the Federal Register. In order to help ensure appropriate consideration, comments should reference OMB Control Number 1205-0457. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.
